

Additive Manufacturing Partnership Labs (AMPL)

Liberty University

*BWX Technologies, Central Virginia Community College, STEM Academy
 Lynchburg Regional Business Alliance, Bedford County, Campbell County*

Strengthening regional advanced manufacturing through expanded lab space, curriculum development, professional development, industry collaboration, and business attraction.

A collaborative effort to build a Additive Manufacturing (AM) base and educating the AM workforce. Liberty University outfits the AM labs with: two Markforged Metal X 3D printers, one Markforged X7 3D Printer, one Geomagic Capture Scanner, and smaller 3D printers in support of the STEM Academy. The 2,400 square-foot facility includes several AM systems capable of full consolidation of nylon, carbon fiber, polymeric, metallic, and ceramic material systems, as well as a prototyping lab which includes a host of characterization techniques.
