Creating a master redevelopment plan for the Central Virginia Training Center to identify the highest and best use of the property based on market feasibility and national trends and analytics.

This project will focus on creating a master redevelopment plan that includes a zoning overlay district. By identifying redevelopment opportunities for the Central Virginia Training Center site, which is located in Madison Heights, Amherst County, the region will be able to generate jobs and housing that pertain to the region's in-demand sectors: manufacturing, technology, and healthcare.
