

Future Centers Expansion

Beacon of Hope

County of Amherst and the City of Lynchburg

Project Start Date: 9/1/2021

Project End Date: 8/30/2022

Providing the future workforce with the skills they need to be successful.

Beacon of Hope has partnered with the City of Lynchburg for the past eight years to operate Future Centers for Lynchburg City Schools. The Future Centers have been successful in encouraging students to pursue post-secondary education, certification, and training and have also made these options more accessible and affordable. The goals of this project are to scale the Future Centers model to Amherst County High School and at least a third high school location in Region 2000 and the CVCC capture area; catalyze local school districts and economic development and business leaders around building a pipeline from high school to in-demand workforce openings; and provide essential career success skills in the high schools that will help students more successfully launch into the workforce.
