

Pivot and RAMP Up

Roanoke-Blacksburg Technology Council

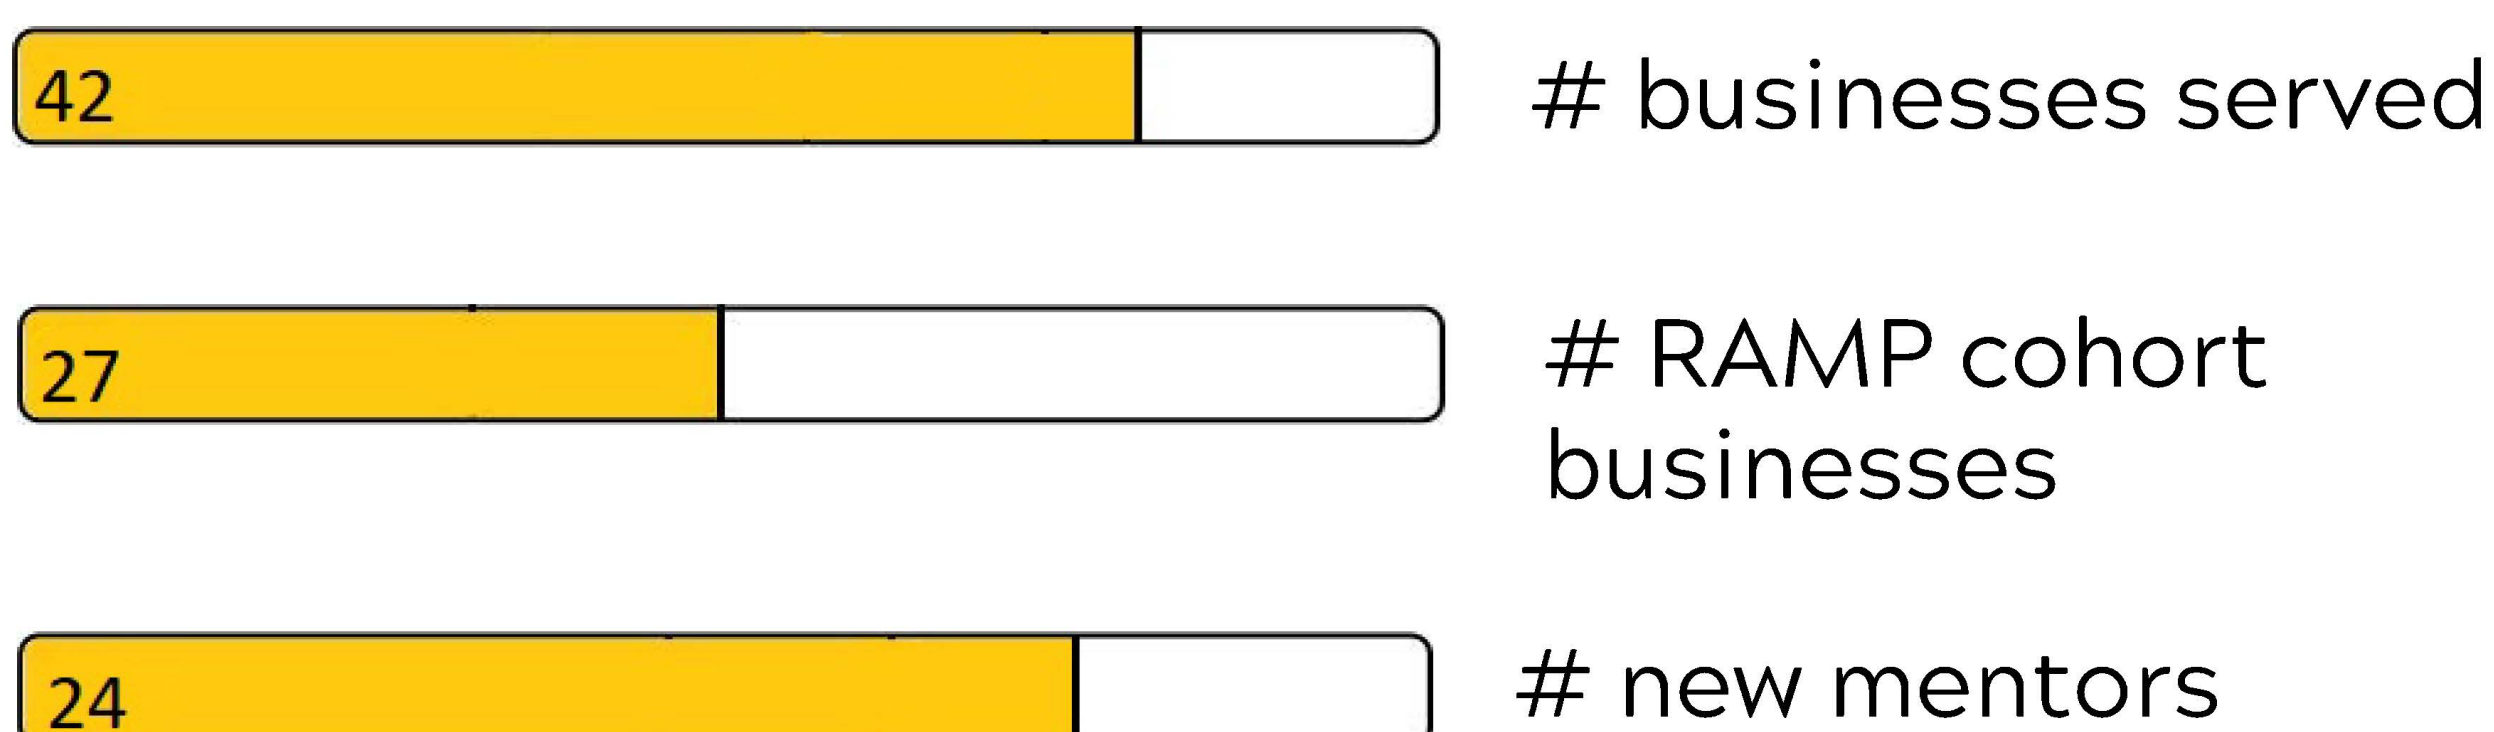

GOVA Region 2 focus, but actively participating localities include Cities of Roanoke and Salem and Counties of Roanoke, Botetourt, and Montgomery

Pivoting the delivery, focus, and content of existing RAMP programming to meet the changing needs of startups and entrepreneurs in the wake of the COVID-19 pandemic.

Regional Accelerator and Mentoring Program (RAMP) will shift its programming to meet the changing needs of startups and entrepreneurs given social distancing requirements and the economic fallout from the COVID-19 pandemic. This pivot consists of a robust content management system, the development of an online mentor support network, and a new “Exit RAMP” program providing ongoing business assistance and connections to resources for RAMP alumni.

METRICS

“Participating in RAMP has been a game changer for Micro Harmonics. We found the help we needed, have outstanding mentors and a community of support. I highly recommend RAMP to any technology startup.”
Diane Kees, Micro Harmonics

Consider Being a RAMP Mentor!

RAMP provides Startups with the help they need to accelerate.
