Project Eagle+

Virginia Tech Corporate Research Center

Counties of Floyd, Montgomery, Pulaski, Giles, and Roanoke, Cities of Radford, Roanoke, and Salem

Filling the need for lab space in Region 2.

Project Eagle+ is growing Region 2’s life sciences and health sector by bringing marquee programming into a dedicated lab facility to fulfill the needs of smaller emerging startups and existing regional biotech companies. The Virginia Tech Corporate Research Center is contracting with a project leadership team that includes Johnson & Johnson JLABS, EDC, and SMBW to build out a pilot shared lab facility in Blacksburg; launch Johnson & Johnson JLABS accelerator programming in the region; and conduct site design and engineering work for a future lab facility based in Roanoke.
